

## **D' You Like**

**Chorus-** Do you waana ride wit me,  
Get high wit me  
Hit the dance floor  
Then maybe maybe home and lie wit me

D' You like, D' You Like  
I'll love you all night

### **Verse 01**

It's a friday night in June  
Must be a full moon  
Cause all the guys are out  
And all the pretty ladies is what were all about  
Just let it go with the flow  
Shake your hips while we grind real slow  
Don't need to worry about where this will go  
The look in your eye says you already  
So all the players shout  
And all the ladies push it out  
If you like and you feeling the flow  
Let it show, let it show, let it show

### **Chorus- x 2**

### **Verse 02**

Girl, you know I'll be your one and only  
Well, I mean from now until the morning  
I love the way your body is moving  
I'm so diggin' your sexy show n' prove  
Gotta let me know just who your choosing  
Your one thing I won't stand losing  
You outstand all these girls grooving  
Got me out here singing the blues n'  
Stroking your hair while we go cruising  
The smell of you has a brother woozin'  
I'm foot loose and fancy free  
Come and spend the night with me

**Bridge-** Ohhh, when your spinning my world starts turning  
There's no way to deny this yearning  
For you, there's no limit to what I would do  
It's cool, I'm your fool, tell me what you want me to do.

### **Verse 03**

Baby girl, this is your night  
It's your move let's make it right  
Your attitude is so out of sight  
1

And that lil' outfit is way to tight  
I can't seem to hold back this feeling  
Way your shaking it got everybody reeling  
Your game is just straight up dealing  
Got me thinking how many bases I'm stealing  
Don't mean to sound to bold  
But let's get this show on the road  
Don't care about what you've been told  
Your sexy body I gotta hold

**Chorus- x 2**

**Rap Verse**

We can do it anyway that you please  
Legs in the air or on your knees  
My physical love will make you wheeze  
Just me and you lets go make babies  
Be like gentlemen and ladies  
I wanna taste your strawberry  
All night we'll keep it merry  
Rocking like we're on a ferry  
Ecstacy I'll take you there  
You can scream baby I don't care  
On the table or in a chair  
It'll be like nothing to compare  
You will be begging for more  
Sound like we're breaking the law  
On the bed, on a rug or on the floor  
I think we'll be needing an encore.
